HARSH ARM OF ISLAM

A native Iranian and a former newspaper publisher, George H. Hassan offers a comprehensive account of the origins of Iran's Shiite fundamentalism. He describes in stark and unsparing terms how Iran, a country once well on its road to modernity, has become a nation under siege, ruled by clergy whose idea of government relapsed to the seventh century. Speaking from first hand experience, Hassan explains how and why the Islamic revolution has caused extreme polarization and sheds light on the regional and international reality facing Iran today.

George H. Hassan was born in Iran and immigrated to USA in the early 60's. He served in the US Army as an interpreter. Hassan is a successful entrepreneur and real estate developer. He lives in Los Angeles, California.
